Forecast for Saturday 22 Jun 2024

Weather: A rather cloudy start to the day, with a small chance of patchy drizzle at times. This morning cloud will gradually lift and start to break, leaving sunny spells this afternoon and high UV levels. Cloud increases again from the west this evening, becoming extensive down to valley floors on windward ground by midnight.

Chance of cloud-free hill tops above 600m: 30% at first, rising to 90%. Falling to 30% again late evening.

Low cloud and visibility: Cloud obscuring some tops and routes above 500m first thing, lifting above the summits by mid-morning and into the afternoon. Cloud again lowering to 400m later this evening. Visibility will be poor or very poor in low cloud early and late in the day, but generally good during the daylight hours.
